THIS IS UNEVALUATED INFORMATION

25X1 1. [redacted] Soviet sub-
marines, almost all of the midget type, are currently active in Yugoslav
25X1 coastal waters. Allegedly, the main objective of the submarines is to
make studies of the coast, land agents, and supply those persons presently
25X1 operating against the Yugoslav regime. The submarines are reportedly
refueled in the Mediterranean Sea.

25X1 2. Because of its irregularity [redacted] the Yugoslav coast is vulnerable to this type of operation and provides the Soviets with a more suitable means of landing agents than do air-drops.
